

You're welcome at the HMC Community Garden

Community Garden

Are you a keen gardener or would like to learn more and share garden produce?

Join our Garden to:

- Learn how to garden and propagate plants
- Learn how to harvest and collect seeds
- Understand 'good' and 'bad' weeds
- Grow and harvest fruit, herbs and vegies
- Share produce with other gardeners
- Learn what grows locally
- Discover what other cultures like to grow
- Share knowledge and skills
- Learn to recycle, compost and create a worm farm
- Develop cross-cultural friendships
- Get to know our chickens (and love their fresh eggs!)
- Learn about our bees and harvesting honey
- Celebrate cultural diversity through gardening!

The HMC Community Garden offers a peaceful space for people to learn, share, connect with nature and celebrate our cultural diversity through gardening. Spending time in the garden is a fun way to meet people from other cultures and to learn from each other how to grow fresh fruit, herbs and vegetables. Our Garden members share the garden beds, share the work and share the produce!

WHEN:

Weekdays 9.00am to 3.00pm or by arrangement

Hunter Multicultural Communities 2a Platt Street, Waratah NSW 2298
office@huntermulticultural.org.au • www.huntermulticultural.org.au
